MOVE-IT
Total Cleaning Solutions

Proudly Made in NZ

2 litre
CONCENTRATE

TOTAL
Moss &
Mould

For Safe, Professional Bleach Free Cleaning

Biodegradable, Environmentally friendly, Guaranteed to work

Please read directions before commencing application. Always dilute Move-It with water before use. Coverage Area: Up to 35m² per litre of concentrate.

DIRECTIONS FOR USE:

Spray and Leave (Outdoors only): Dilute as per instructions, wet area to be treated before application, spray product onto surface thoroughly, leave to work with the weather. Although the growth may be dead, residue will take approx 3 months to clean away depending on weather conditions. Do not apply if rain is expected within 5 hours or in the heat of the day. Morning or evening gives best results. Coverage: 20m² per litre of concentrate.

Instant Clean: Dilute as per instructions, wet area to be treated before application, spray product onto surface thoroughly. Agitate with a medium bristled broom. Leave for 20 minutes then hose clean with a garden hose on full pressure. Do not allow to dry during process, dampen with light sprinkle if needed. Coverage: 25m² to 35m² per litre of concentrate, depending on level of infestation.

Spray & Wipe: Spray surface, wipe clean with a damp cloth. Shower glass - wet first, spray on product, agitate, then rinse clean. Do not leave on surface to dry.

WARNING/FIRST AID:

Ingestion: Harmful if swallowed - drink water and seek medical advice
Eyes: Avoid eye contact. Wear safety glasses. If eye contact is made, rinse with clean water for 10 minutes.

Dilute Move-It to parts water specified below

100ml Move-It to mls water:	500	1000	2000	100ml Move-It to mls water:	200	500	1000	2000

Trees (Trunk and Branches Only)	•							

Area to be treated must be exposed to the weather for Spray & Leave to work, otherwise apply instant clean option

Skin: Always wear gloves - could cause mild skin irritation, wash with soap and clean water.

STORAGE: Store in a secure place out of sunlight with lid firmly closed. Product shelf life 5+ years.

PROPERTIES: Non-corrosive. Non-staining.

APPEARANCE: Clear blue liquid.

CONTAINS: 25gm/l Alkyl Benzyl Ammonium Chloride; 4gm/l T.E.A.

IMPORTANT: The purchaser assumes all risk for the correct use and safe handling of this product if NOT used in accordance with directions.

ALUMINIUM SURFACES: Avoid contact with all aluminium surfaces. Discolouration could occur. If contact occurs, wash off immediately with clean water.

NOTE: Always test in an inconspicuous area before use. Natural discolouration may occur - when some moulds die they leach a natural red/brown colour which will last a few days and disappear leaving a clean surface. Do not be alarmed, it will not stain.

Roofing: Disconnect spouting to water tanks. Reconnect after at least 5 heavy rainfalls.
