PERSONAL PROTECTION: When mixing or applying, wear eye protection, chemical resistant gloves and boots, cotton long sleeved overalls. Wear a half/full face respirator.

DISPOSAL: Dispose of this product only by using in accordance with the label. Triple rinse empty container with water and add to spray mix. Dispose of triple rinsed container through an approved recovery scheme, e.g. Agrecovery or puncture empty, clean container and dispose of safely with domestic rubbish.

FIRST AID: If swallowed rinse mouth, **DO NOT** induce vomiting and seek medical advice. For advice contact the National Poisons Centre (0800 764 766) or a doctor immediately. If splashed in eyes, remove contact lenses if present and easy to do, flush eyes with water for at least 15 minutes and see a doctor. If inhaled, move victim to fresh air immediately. If breathing has stopped, begin artificial respiration. Use mouth-to-nose rather than mouth-to-mouth. If skin irritation occurs seek medical advice.

DIRECTIONS FOR USE

Add 10ml of this product per litre of water and spray on surfaces as a barrier to control insects. Before applying always test on a small area first to ensure streaking, staining or marking does not occur. If using indoors do not spray onto freshly painted surfaces, wait at least 1 month after painting. Spray window sills, skirting boards, ceilings, eaves and other surfaces to target flying and crawling insects. **DO NOT** remove cobwebs for up to 7-10 days after treatment. Open windows and doors to ventilate rooms for 4 hours following treatment. Controls most insect species for 3-6 months. Surface spray only. Do not spray into the air. **DO NOT** spray onto surfaces that come into contact with food. **DO NOT** spray personal contact items, eg clothing, footwear, towels or bedding. **DO NOT** spray pets. Remove pets from treated areas prior to application. Cover or remove fish tanks and bird cages before application.
