PRECAUTIONS

DO NOT place NoPests Ant Bait on surfaces that are washed regularly, cooking utensils, cooking surfaces or cutlery.
DO NOT apply NoPests Ant Bait to surfaces where the temperature exceeds 45°C.

SAFETY DIRECTIONS

Wash hands after use.
This product is warranted to contain the specified active ingredient within accepted analytical tolerance when packed.

DIRECTIONS FOR USE

NoPests Ant Bait is specifically designed to control pest species of ants. To apply, remove the cap on the nozzle and touch the tip to the surface to be treated and slowly squeeze the tube until sufficient ant bait is dispensed in a thin line approximately 2.5mm wide and 50mm to 75mm long across or alongside active trails.
Inspect ant bait placements periodically and apply ant bait until all foraging ants are feeding. Recap the tube after treatment is completed.

Squeeze gel from tube into a thin line along an ant path, reapply fresh bait as needed.

FOR TOTAL TREATMENT OF ANTS PARTNER WITH PRODUCTS IN THE NOPESTS ANT PROGRAM

WARNING:

This product is subject to controls and could be hazardous if handled incorrectly. The user is responsible for ensuring that the handling of this product is in accordance with the law (including the Hazardous Substances and New Organisms Act 1996) and with the directions provided.

Key Industries Limited declines all liability whether in contract, tort (including but not limited to negligence), (or otherwise), to the maximum extent permitted by law in relation to the handling of this product in a manner which is contrary to the directions given or to any applicable Acts, Regulations or Guidelines. Further information regarding the applicable Acts, Regulations and Guidelines for the proper handling of this product may be obtained by contacting EPA New Zealand (www.epa.govt.nz).

This product is warranted to contain the specified active ingredient within accepted analytical tolerance when packed.
