Dear Mark,

APPROVAL OF DAIRY MAINTENANCE COMPOUND FOR USE IN FARM DAIRIES AND FOR USE IN DAIRY PROCESSING

The new product **Redact** has been considered in conjunction with the type of validation information provided and has been determined to satisfy the requirements of regulations 12, 13, 14, 53 and 247 of the Animal Products Regulations 2021 and regulation 43 of the Raw Milk for Sale Consumers Regulations 2015, when used in accordance with the label.

The product **Redact** has been assessed and is approved for use in farm dairies and for use in dairy premises when used in accordance with label instructions.

This approval of the compound for use in farm dairies is subject to the following conditions:

1. To be used in accordance with label instructions.
2. Must not be used in areas where milk is exposed or stored, including milking and milk storage areas.
3. After use surfaces must be cleaned and rinsed with clean water prior to the next milking.
4. Animal feed contact surfaces must be rinsed after use of this product.
5. Must not be used around milking animals or animal feed.
6. The surrounding area must be out of service and well ventilated after application/use.
7. Milk contact surfaces in and near the farm dairy must be cleaned and rinsed after use.

Where this approval is stated on the product label, the statement “MPI approved for use in farm dairies” is to be used, unless an alternative is agreed in writing by MPI.

This approval of the compound for use in dairy processing is subject to the following conditions:

1. To be used in accordance with label instructions outside food areas.
2. Must not be used in areas where milk, dairy material, product or ingredients are processed.
3. Should incidental contact with milk or food surfaces occur, the surfaces must be thoroughly cleaned and rinsed to ensure no residue remains.
4. No contact with food or food contact surfaces permitted.
5. The product must not be used on food or food packaging contact surfaces or handling areas.

Where this approval is stated on the product label, the statement “MPI approved for use in dairy processing” is to be used, unless an alternative is agreed in writing by MPI.

Should this product be determined to be unsatisfactory when used as recommended by the manufacturer or an agent of the manufacturer at the stated dosage, MPI may withdraw this approval.

Review

This approval of a dairy maintenance compound for use in farm dairies and dairy processing is valid for a maximum period of 5 years but is subject to periodic review and may be withdrawn at any time should the Director-General determine that there is sufficient evidence that the product is not fit for the purpose for which this approval applies.

New Zealand Food Safety

Haumaru Kai Aotearoa

You will be issued a letter prior to the review date, which is set at **06 October 2027**, but you are responsible for ensuring that this review is completed if you wish to retain MPI approval of the above dairy maintenance compound.

Yours faithfully,

Shaleen Narayan
