KEEP OUT OF REACH OF CHILDREN

CUT'N'PASTE®

ORIGINAL - The Safer Weedkiller Gel

IMPORTANT: READ FRONT & BACK LABELS BEFORE USE

ACTIVE INGREDIENT:
120g/L glyphosate present as the isopropylamine salt.

CONVENIENT & TARGETED FOR CONTROL OF SHRUBS, TREES, & LEAFY WEEDS
NO SPRAY – JUST WIPE YOUR WEEDS AWAY

Distributed by Key Industries Ltd +64 09 917 1791
Emergency Tel: 0800 CHEMCALL (0800 243 622) 24 hours
www.cutnpaste.co.nz *Contents 450mL*

DIRECTIONS:

Cut'N'Paste Original gel is a direct spot treatment to foliage and cut stems and won't travel through soil to affect untreated plants. Avoid rainy days to reduce the risk of runoff. Clean the brush top after using and replace the cap.

Trees & Shrubs – Make a level cut through your tree or shrub very close to the base. Immediately apply a thick layer of gel to the stump. Gel is quickly drawn into the plant's root system, sealing the cut.
Most plants will show no regrowth. Simply re-treat any regrowth. For bamboo, privets, gorse and other highly coppicing plants, use Cut'N'Paste Bamboo Buster or Glimax products.

Leafy Weeds – Wipe gel on the underside of a few leaves. Break off affected leaves of accidentally touched desirable plants.

Cut'N'Paste is ideal for weeds in revegetation plantings, riparian areas and close to sensitive plants etc. No need to spray.

For detailed instructions and videos for specific weeds visit www.cutnpaste.co.nz or email info@cutnpaste.co.nz

READ LABEL BEFORE USE

IMPORTANT: Keep out of reach of children.

DO NOT use on or around any food or animal feed crops.

Non-selective herbicide. Apply this product carefully. Do NOT apply when rain is expected within 4 hours of application.

PERSONAL PROTECTION

Avoid contact with eyes and skin. Use in well-ventilated area. Wear impervious gloves. Do not eat drink or smoke when handling. Wash hands after use.

FIRST AID

For advice call a doctor or contact the National Poisons Centre (0800 764 766). If medical advice is needed, have product label or container at hand.

IF INGESTED: Rinse mouth. Get medical advice.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice.

IF ON SKIN: Remove contaminated clothing. Wash skin and hair with plenty of soap and water. If skin irritation persists, get medical advice. Wash contaminated clothing before reuse.
